Field Trips

Thanks to all chaperones for a great first field trip! Your help allows us to explore our community and is greatly appreciated! Watch Remind for the next opportunity to join our classes.

Technology at Home

Students have access to Moby Max and Khan Academy at home. Log in information is in their agendas. These are great tools to practice math facts and other skills.

Pirates

Ahoy, matey! The fifth grade is beginning to study explorers, and it will lead into a pirate unit very soon! We will end with a pirate party on Tuesday, October 31st. All fifth graders are expected to dress like a pirate for our party. Be creative - homemade costumes are the best! Prizes will be given for the most creative costumes. Please watch for a sign up to help provide the feast for our celebration.

Agendas & Behavior

Mrs. McC will no longer be initialing agendas every day. Students are responsible for filling them out. Remind is the best way to contact us. Students have begun noting in their agenda where they ended the day on our clip chart. Check it out!

Bathroom Passes

All students were given a number of passes to use the restroom during class time. Students needing to leave instruction to visit the restroom will now be required to give up their recess. Students have the opportunity to use the restroom at recess every 90 minutes, plus before & after school.

Fact Masters

Basic multiplication facts are currently under review. If your child does not have these skills mastered, please help them practice nightly so they do not fall further behind.

Parent/Teacher Conferences

Meetings to share your child's progress will be held on Monday and Tuesday, Oct 23-24. Students WILL have class during this time. Please sign up outside the classroom door or email your teacher for a time.

Important Dates:

| | |
|-----------|--------------------------------|
