

Math 7

Focus on 7th grade math standards as well as review of previous grade standards when needed. This course prepares students for Math 8.

Pre-Algebra

Focus on 7th and 8th grade math standards at an accelerated pace. This course prepares students to complete Algebra I as an 8th grader to possibly earn a high school math credit.

Math 8

This course will follow the pre-algebra course format, but will advance at a regular pace. Emphasis will be on 8th grade math standards and review of previous grade standards when needed. This course is to prepare students for Algebra I as a 9th grader.

Algebra I

Primary focus is on necessary Algebra standards/skills to build a solid math foundation in preparation for higher math courses in high school.

* Students who want to earn high school credit for this course are required to pass both semesters and an End of Course exam given in May.
